

# Travel Benefits For Your Members | Employees

- Highly Discounted Rates up to **50%** off Retail
- Access to **Unpublished** Inventory
- Commission | **Profit** Sharing

Would you like to offer Travel Benefits to your Members Or Employees while at the same time earning Commission on every booking?

Here is how it works:

On popular public retail travel sites like Expedia and Priceline, hotel prices don't vary much because of the industry's rate parity policies. Rate parity can be defined as maintaining consistent rates for the same product across all online distribution channels. Conversely, on a member's only or corporate website which require a username & password to login, rate parity does not apply.

As the nation's largest distributor of member's only and corporate discount sites, we are able to:

- Access highly discounted rates from multiple suppliers worldwide and from the hotels direct.
- Provide access to thousands of industry only "unpublished" rates and other exclusive discounts on high-end resorts and vacation rentals.
- Rates with legitimate saving of up to 50% off public website including the hotel's own website.

This allows our partners to provide unique travel benefits for their members and employees while receiving an attractive commission model.
